## Historical Note

The Fleets and Facilities Department (FFD) manages and maintains municipal real property and facilities, as well as overseeing the City's vehicle fleet. FFD was created in 2001 in a reorganization of the Executive Services Department, which was itself created from a merger between the Finance Department, the Personnel Department, and the Department of Administrative Services (DAS) in 1997. DAS was created in 1980 with the merger of certain functions of the General Services Department, Building Department, Division of Motor Transportation, and Office of Management and Budget.

## Content Description

Real estate appraisals of buildings and property for a variety of locations in Seattle from several appraisers. Appraisals include photographs and are helpful for learning about the historical context of property; description and images, as well as assessed value, of neighboring properties are often included. Some title reports are also included. Property appraised is primarily open space and is located in all parts of the city, including Queen Anne, the Duwamish, Pipers Creek, Thornton Creek, Longfellow Creek, as well as other creeks, the Kiwanas Ravine, as well as other ravines, the Arroyos

Natural Area, and property under consideration through the Opportunity Fund. The Opportunity Fund was created to provide funding for exemplary and time sensitive projects addressing both City and neighborhood priorities in neighborhood plans and that leverage other funding.

## Use of the Collection

### Preferred Citation

[Item and date], Real Estate Appraisals, Record Series 0206-01. Box [number], Folder [number]. Seattle Municipal Archives.

## Administrative Information

### Arrangement

Arranged by parcel description.
