## Historical Note

The Department of Neighborhoods was created in 1991 by consolidating staff from the Executive Department's Citizens Service Bureau and Office of Neighborhoods, the Community Service Centers of the Department of Human Resources, and the Neighborhood Assistance Division of the Department of Community Development. The Office of Urban Conservation, the City's historic preservation agency, was added in 1992. The following year, the department added a community development function by taking over projects in the Central Area, Southeast Seattle, and the Port of Seattle. In 1999, the Neighborhood Planning Office was abolished and its continuing functions were assumed by the Department of Neighborhoods. The Department's mission is to bring local government closer to the citizens by maintaining a responsive presence in Seattle neighborhoods, by responding to citizen concerns and complaints, and providing a communications link for neighborhoods on City issues that will have an impact on them. The department operates the Neighborhood Service Centers (Little City

Halls), administers the Neighborhood Matching Grant Program, staffs the Landmarks Preservation Board, and manages the P-Patch program.

## Content Description

Neighborhood Development Managers, responsible for the 6 city sectors (East, Northeast, Northwest, Southeast, Southwest, and West), facilitated, monitored and coordinated the implementation of adopted neighborhood plans, working with other departments and external public and private agency to ensure implementation of projects identified in the plans. Records include neighborhood plans, maps, correspondence, project files, fact sheets, outreach materials, meeting files, proposals, and subject files concerning the implementation of neighborhood plans. Major projects include Sound Transit Link Light Rail, University Heights Community Center and an Admiral district parking garage. Subjects include urban villages, business development, parks, parking, street improvements, neighborhood safety and amenity projects, and grants. Included are records of the Neighborhood Planning Office concerning ongoing work and the final approval and adoption of neighborhood plans.

## Use of the Collection

### Preferred Citation

[Item and date], Seattle Neighborhood Development Managers Records , Record Series 5757-02. Box [number], Folder [number]. Seattle Municipal Archives.

## Administrative Information

### Arrangement

Arranged in subseries for six sectors, special projects and managers' general subject files.

---

## Detailed Description of the Collection

The following section contains a detailed listing of the materials in the collection.
