Historical Note

A Fire Department was established by City Charter in 1883. It provided for equipment purchases, but not for hiring of firefighters. Following the Great Fire of 1889, a professional fire department was created with five district fire stations and purchase of a fire boat. The first Fire Chief of the professional department was Gardner Kellogg who served 1890-1892 and 1895-1901. A Board of Fire Commissioners was established by the 1890 City Charter to prescribe rules and regulations for the Department. The Board's responsibilities included enforcing rules violations, and appointing the Fire Chief and all subordinate officers. The Board was abolished with passage of a new City Charter in 1896. The position of Fire Marshal was established in 1901 with responsibility for inspecting buildings to insure they were in compliance the ordinances related to building construction and fire protection. The Fire Marshal also inspects all fires and reports on the causes. The Department's mission is to curtail loss of life and property by fire through inspection and certification of building safety systems, public education, regulation of hazardous material storage, and fire suppression.

Content Description

Findings of the Accident Prevention and Incident Board concerning fire apparatus accidents and personal injuries to fire personnel. The board met once a month to evaluate accidents and incidents, determining whether they were "preventable" or "non-preventable." Recommendations for how to avoid incidents were given, as well as estimated costs of damage to apparatus and shift losses for injured personnel. The memoranda provide a schedule for the year's meetings and which battalion and ladder companies are requested to be in attendance.
