Biographical Note

James Nathaniel Holdaway was born on January 2, 1868, in North Ogden, Utah. Two years later his parents, Daniel and Martha Holdaway, moved the family to Deweyville, Utah, where they purchased a dry farm. Holdaway left the family homestead at age 16, in 1884, to seek employment in a mine near Butte, Montana. He worked there for about a year before returning to Utah to cut and haul timber out of Logan Canyon. Then, in the late 1880s, Holdaway decided to attend school at the Agricultural College of Utah in Logan, where he trained as a surveyor and an irrigation engineer. After completing his education he secured a government job working out of Grand Junction, Colorado. Around 1892 Holdaway again returned to Utah, this time to work for the Hammond Brothers as a surveyor on the construction of a canal in the Bear River Valley. After marrying Louise Braegger on March 6, 1900, in Brigham City, Utah, Holdaway was elected Box Elder County surveyor. He served three four-year terms, from 1900 to 1912. Following this, Holdaway resumed his career as a private surveyor as well as working on the family farm. Holdaway died on November 21, 1948, in Deweyville at age 80.

Content Description

This collection contains the papers of James N. Holdaway and spans the period of 1856-1945. The bulk of the collection is comprised of land surveys and structural diagrams produced by Holdaway during his years as a public and private surveyor and engineer. The surveys are labeled with an "S" followed by an identifying number, while the diagrams are labeled with a "D" followed by an identifying number. Drawings that were rolled up when they were donated are housed in tubes, while those that were flat are housed in flat boxes. All other materials, including survey notes, letters, and a financial ledger, are housed in Box 1.
